Message from the Mayor

Hello everyone,

The Municipal Council would like to thank everyone that took part in the discussions that have taken place over the last few months on the potential development project. Your feedback has been extremely valuable. On June 8th, the final discussion of this concept phase was completed and we have received many memoirs from residents. Unfortunately, one of the underlying themes, despite our best efforts to inform the population, was a misunderstanding of some of the facts, procedures and protections already in place. We felt it was important to summarize everything covered to this point in the hopes of calming some of those fears.

In December, Council was shown a preliminary concept for the project and was asked for feedback. While it was easy to identify what didn't respect our regulations, we felt it was important to consult with you the residents to better understand what would and wouldn't be socially acceptable for this project, an important factor in any future approval process. Our hope was that the feedback we would receive could better guide the Council and the administration with future discussions with the developer as they revise their project. In February, we presented the little information we could about the concept and have since had several public forms of discussion on the subject. There were two major themes that have persisted throughout discussions: protection of the environment and zoning changes.

The protection of the heron site on the property was of great concern to many and we are happy to confirm that regulations already exist in Wentworth's By-Laws to protect the site. Furthermore, we have asked through resolution that the MRC and provincial government update their regulations to reflect our recognition of the site. Wetlands are the natural water filters that protect our watersheds and local, regional and provincial regulations strictly protect all wetlands. Any project deposited would have to provide in-depth studies by biologists identifying all wetlands on the site and prove that they are protected before any approvals would be granted at all levels of government. The potential for a golf course was also of concern for the watershed. Municipal regulations prohibit the use of pesticides and fertilizers and require that all surface water be managed on site. As well, a strict approval process at the provincial level is required. If these standards cannot be met, a course will not be possible.

To date, most of the usages the developer envisioned for their project fall within those already permitted in zone RU-6. There have been no requests for any By-Law changes. In the event that a change is requested, with the official deposit of a project, the public would be consulted about the change and if needed a referendum about the change would be possible. To be clear, the Municipality has no obligation to change any of its By-Laws and would only do so if it felt it was in the best interest of the public.

We were also pleased to adopt a new By-Law requiring the signing of a promoter's agreement for all new projects. Learning from some of the failed projects of the past, this agreement would protect us from such things as finished roads, poorly planned execution and expenses to be assumed by the Municipality. The agreement would have to be signed before any work could proceed and would ensure it got off on the right footing.

In the coming weeks, Council will be providing our feedback to the developer and the real work of revision, studies and reports will begin. This process may take several months to complete and we don't expect to have anything new to share anytime soon. However, rest assured that when a project does get deposited, all of the public consultations and reviews outlined in the law will be respected. The potential impact of this project would have lasting effect on the community and we will take the time necessary to make sure it reflects what we want as a community.

A quick reminder that everything done up to this point has been a voluntary process initiated by Council to maintain transparency with the community and in no way takes away from the legal process required for actual approval. We would also encourage you to look online at our Wentworth website for more details on these subjects.

I hope you all enjoy a pleasant summer and rest assured that Council is working with you and for you to preserve our community.

Your Mayor,

Jason Morrison

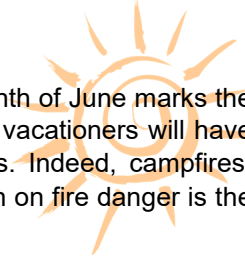

FIRE DEPARTMENT

For any **emergency**, call **9-1-1** or for more information or questions about fire safety, please contact your Fire Department at (450) 562-0701 ext. 2929.

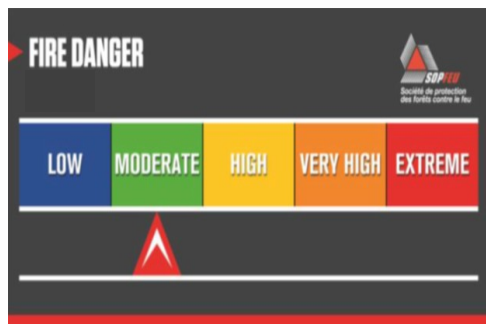

The forest fire season is underway

Good weather and caution in the forest

The nice weather and heat begin to settle in Quebec with the arrival of summer. The month of June marks the beginning of summer activities such as fishing, hiking and camping. Outdoor lovers and vacationers will have to use caution if they have to make fires during their outings and activities in forests. Indeed, campfires, 4-wheelers and smoker's items all represent potential causes of fires. Getting information on fire danger is the best preventive behavior!

For a safe summer, please refer to the fire risk signs located at entry points to the Municipality or visit the website of the **SOPFEU** (www.sopfeu.qc.ca) to learn more, reduce the risk of fire and thus prevent a fire on your property from spreading into our forests. **And remember!** A fire will not go out on its own. Hot embers can be revived by the wind.

- Low-intensity, limited-spreading fire.
- Surface fire spreading moderately. It is generally easily contained.
- Moderate to vigorous surface fire, with intermittent crown involvement. It poses control challenges to ground crews.
- High intensity fire with partial to full crown involvement. Head fire conditions are beyond the capacity of the ground crews.
- High intensity crown fire. It spreads at high speed and can become uncontrollable.

To learn more, visit www.sopfeu.qc.ca or to be informed at all time, download the mobile app.

THE GREEN BULLETIN

RESIDUAL MATERIALS WASTE MANAGEMENT ACROSS THE MRC OF ARGENTEUIL

In the MRC of Argenteuil, every time we sort our waste, we think about what we throw away, recycle or compost.

The **3-2-1-0 Strength in number** campaign, a regional initiative to reduce our waste to zero.

Organic waste / Community composter (voluntary basis):

What can be composted? All organic waste (kitchen and green waste).

Kitchen waste (dry/brown matters):

Fruits, vegetables, meat and cooked fish, seafood and mollusk (including shells), bones, leftovers (pasta, rice, sauces, cakes, pastries), bread, cereals, dairy products, coffee with filter, tea bag, egg shells.

Others: pizza boxes, cardboard contaminated with food, paper towels, used paper napkins and tissues, hair, animal fur.

Green waste (wet/green matters):

Cut grass, dead leaves, branches (less than 1 centimeter in diameter and less than 60 centimeters long), flowers, plants (with soil), bark, wood chips, saw dust, weeds.

**COMMUNITY COMPOSTERS
ARE AVAILABLE
365 DAYS A YEAR** ✓

3 community composters are available in Wentworth:

- at the Municipal Office - 114 Louisa Road (next to the Fire Hall)
- at the intersection of Dunany Road and Boyd Road
- at the intersection of Glen Road and Charlie Chaplin Road

To find out more about waste management: www.3-2-1-0.com or call the Municipal Office at 450 562-0701

Boat Wash Station

2019 Summer schedule

116 Louisa Road (next to the Fire Hall)

Mon to Thurs (by appointment)	9 am to 4:30 pm
Friday (by appointment)	9 am to 4 pm
Friday (evening)	4 pm to 8 pm
Saturday	8 am to 2 pm
Sunday	noon to 4 pm

To obtain the procedure to access the municipal landing, kindly visit our website at www.wentworth.ca or contact the Municipal Office at (450) 562-0701 or info@wentworth.ca.

To apply for an Access Permit attesting that your boat or any other crafts remain at all times on Lake Louisa, a form must be completed and signed. You can obtain this form at the Municipal Office (Mon to Fri, 9am to 4:30pm), at the Boat Wash Station during its opening hours or on our website at www.wentworth.ca.

To get the key to the municipal landing (Giles Road), a \$300 deposit is required. The key number will be registered in your name and must be returned the same day, otherwise the deposit will be kept.

Enjoy a safe Boating Season !

THE TELEGRAM

From your MRC to you

www.argenteuil.qc.ca
@MRCdArgenteuil

The MRC of Argenteuil wishes to communicate more with you, the citizens of Wentworth. Thanks to the collaboration of your municipality, we will take advantage of The Telegram to send you short messages so that you can be informed of current news, programs, events and projects in your MRC. After all, who said that the telegram was out of date ?

The MRC of Argenteuil welcomes 4 police-cadets for the 2019 summer season

As the presence of the police-cadets has been greatly appreciated in the recent years, the MRC of Argenteuil has decided to hire two more police-cadets this year. These young cadets are students or graduates in police techniques, who do not yet have official police status, but are able to offer many services to the public, while gaining valuable experience in the field. Throughout the summer of 2019, it will be four police-cadets who will participate in community life by traveling the territory of the 9 local municipalities of Argenteuil. The population is invited to give the warmest welcome to these young recruits!

Mini-Games of Argenteuil: Sports activities for young people from 6 to 12 years old

The 15th Edition of the Mini-Games of Argenteuil will be held Thursday July 11th 2019 on the site of the Laurentian Regional High School (448 Argenteuil Avenue in Lachute), from 9am to 3:30pm. You may get the registration form directly from your Municipality or at the MRC of Argenteuil (540 Berry Street).

Register your child (ren) no later than Friday July 5th 2019. It's FREE!

For information: Historical Train Station - 540 Berry street in Lachute or at 450 562-2474 (2307).

Who says spring, says VéloRoute!

Offering a 54km biking route throughout the municipalities of Saint-André-d'Argenteuil, Brownsburg-Chatham, Grenville-sur-la-Rouge and Grenville Village, the VéloRoute of Argenteuil also offers a stretch of biking path of 8,1km in a mature forest (no cars allowed) on which 2 large art structures: a 63-meter suspension bridge over the Rivière du Nord in St-André-d'Argenteuil, linking Ile-aux-Chats to the Von Allmen woods and a lookout on the banks of the majestic Ottawa River, near Route 344 between Mont St-Philippe and the Brownsburg-Chatham municipal campground.
